Webtrace

Web-based Workforce / Fleet Management System

Introduction

WEBTRACE is a location-based service which enables individuals and companies to monitor people and equipment from the internet.

The web-based application is designed to interact with GSM based devices with in-built GPS receivers. Users are equipped with a GPS-enabled device which communicates with TRACE's Central Web Server that will then enable subscribers to access real-time information by logging into private accounts to monitor track movement on precise digital maps powered by www.streetdirectory.com.

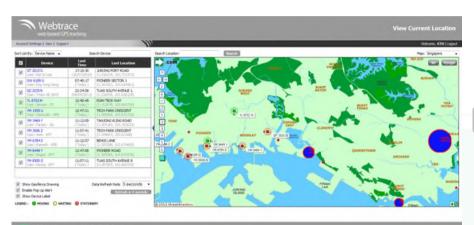

Webtrace Services

To access **WEBTRACE**, users only need to log on to the following URL: www.webtrace.net.

A user account and password will be assigned to you, allowing you access to your private information. Monitor the location of your workforce, view status reports and assign job duties from any internet terminal. It's just that simple!

Features

- View all devices connected in your account and its status.

Streetdirectory (SD) is a technology firm that focuses on developing location-based software and solutions. Established in 2008 and managed by the same team of personnel who operates www.streetdirectory.com, the company has acquired specialized skills in the area of Digital Map Imaging, Spatial Analysis and Wireless Navigation.

To meet the demands of different industries, SD manages a portfolio of 4 distinct service lines each leveraging on SD's core mapping capabilities. These range from online location based services to customized PC based GIS systems. Each service line has achieved a high level of customer traction and is complementary in nature. The firm also offers advertising opportunities at its widely popular portal Streetdirectory.com $^{\text{TM}}$ in which we showcase our latest developments.

Having established a strong product offering in Singapore, SD actively replicates its marketing mix in the Asia Pacific region, adjusting itself where necessary. These markets offer significant growth potential and operations in these countries will be necessary in order to service our MNC customers based in Singapore.
